Meat-Marking-Pencil No. 698

The Faber-Castell Meat Marking Pencils No. 698 (Ref.-No. 216983 brown and Ref.-No. 216984 blue) are woodcased pencils. The raw materials of the leads are binders, food-dyestuffs, filler, a fat-/wax-mixture and additives.

The food-dyestuffs are Acid Blue 9, C. I. No.: 42090 = E 133 and Food Red 17, C. I. No.: 16035 = E 129.

The raw materials of the leads (= pencil core) are food-grades.

The raw materials are certified and characterized by technical data sheets and MSDS. The raw materials and pencils are tested concerning contaminations (e. g. heavy metals). The pencils have no expiration date because of the solid-composition and the used raw materials.

The Faber-Castell pencils are consumer goods and not dangerous products or chemicals. Therefore a Safety Data Sheet (SDSH) isn't necessary under the existing regulations of the EU.

The Faber-Castell pencil-leads (core) of the Meat Marking Pencils No 698 conform to the EU-regulations 94/36/EG, VO 1935/2004, VO 1333/2008, to Regulation of the European Commission 10/2011 with amendments 1183/2012, 1935/2004 (Annex nr 4) and the REACH-regulation.
